

If there are currently no distributors in your local market, and you are interested in becoming a distributor, please complete the form below.

We evaluate each applicant's capabilities to become a Stock Sweepers distributor. It is a simple process where we assess your competencies in marketing, sales, and technical support, for a long-term business relationship potential in your country.

Successful distributors are invited to join our dealer network under contract and will then purchase a demonstration vehicle for their country.

Full training and ongoing support is provided to each dealer and/or their third party contractors who may manage part of the agency.

For example, you may choose to use a third party commercial vehicle agent to mount the SKID units onto chassis locally to you, if your skills are more focused on marketing and sales.

**Company name**

**Web address**

**Postal Address**

Please attach company registration documents and a copy of your company letterhead.

**Country/territory proposed**
